Literacy Volunteers Valley Shore, CT Inc. services any adult resident in our shoreline community towns who needs to improve their English language abilities. Our English language tutoring services are delivered free on a 1:1 basis to individuals residing or working in our service area. Tutoring services are delivered by trained volunteer tutors at area libraries and are based on the individualized needs of the student.

Students express gratitude! *One student wrote: "Few months ago if I wanted something to say and I didn't know how, I give up. Now I know more words. It's easier for me to explain something and I will not give up easily. I would like to say thank you to LVVS and their volunteers for their help, generosity and precious time."*
